

Regarding K-Love radio station, please ensure that this station is allowed to remain on the air and that it's given priority on the FM translators. K-Love is a great service to me with its commercial-free programming and it's uplifting message. It's a station that can be played in any location without worry that children will hear inappropriate information. If K-Love would be displaced, I would be personally affected as would several friends and members of my church who also listen. The community as a whole would be disadvantaged by not having the positive and encouraging messages that K-Love brings. I see bumper stickers throughout the community indicating that K-Love's appeal is far-reaching. It's in the public interest to keep stations like K-Love broadcasting. Thank you for your attention.
